The work of HR, L&D and OD influences and is influenced by organisational culture because every organisation is made up of human relationships and human interactions. Culture is therefore central to the role of the profession and must be managed and developed accordingly. This factsheet explores the importance of creating an organisational culture that supports policies and practices aimed at making positive change.

#### Organisational Culture and Cultural Change | Factsheets | CIPD

Acceleration and amplification of these various aspects of culture change have been explored by complexity economist, W. Brian Arthur. In his book, The Nature of Technology, Arthur attempts to articulate a theory of change that considers that existing technologies (or material culture) are combined in unique ways that lead to novel new technologies. Behind that novel combination is a purposeful effort arising in human motivation.

#### Culture theory - Wikipedia

Culture change is change that occurs over time to the shared way of life of a group. This emerges with the experiences of a society, traditional culture, organization, super culture or subculture. The following are illustrative examples of culture change.
